Thoracic diameter, early pregnancy, gestational sac, maturity, M-mode, ultrasound, 73
Tissue prostaglandins, adrenergic receptor activity, ampullary-isthmic junction, egg transport, functional anatomy, tubal fluid, 267
Tissue shrinkage, dimension reduction, example, quantitation, 43
Tolfenamic acid, indomethacin, PG-synthetase, primary dysmenorrhea, 59
Torner, A., 357
Total body water, intravascular protein and albumin masses, multigravidae, primigravidae, red cell volume, serum heat-stable alkaline phosphatase, serum volume, urinary estriol, 17
Tournaire, M., 261
Toxemia of pregnancy, alpha-thalassemia, hydrops fetalis, 25
Tracheal aspirate, fetal lung maturation, L/S ratio, RDS, twin pregnancy, 65
Transplacental diffusion, ovarian veins, placental drainage, rhesus monkey, 79
Tubal dysfunction, chronic salpingitis, follicular salpingitis, physiological salpingitis, tubal pregnancy, 287
Tubal fluid, adrenergic receptor activity, ampullary-isthmic junction, egg transport, functional anatomy, tissue prostaglandins, 267
Tubal pregnancy, chronic salpingitis, follicular salpingitis, physiological salpingitis, tubal dysfunction, 287
Twin pregnancy, fetal lung maturation, L/S ratio, RDS, tracheal aspirate, 65

Ultrasonation, bull spermatozoa, cross-reaction, sperm agglutinization, sperm immobilization, 5
Ultrasound
early pregnancy, 73
gestational sac, 73
growth retardation, 85
maturity, 73
M-mode, 73
prematurity, 85
thoracic diameter, 73
Umbilical cord, constrictions of small arteries, perinatal, 365

Urinary estriol, intravascular protein and albumin masses, multigravidae, primigravidae, red cell volume, serum heat-stable alkaline phosphatase, serum volume, total body water, 17
Uterine contraction, dilatation, uterine power, 251
Uterine power, dilatation, uterine contraction, 251
Uterine wall, human, postovulatory endometrium, rabbits, 1
